SKILLS

HTML5 CSS3 JavaScript(ES6+)

ReactJs NextJs NodeJs

ExpressJs Redux/Redux-Toolkit

MongoDB (any SQL/NoSQL database)

Tailwind Axios JSON REST APIs

Git (Version Control) Github Prisma

Slack JIRA Stripe Payments Jest

React Testing Library

CERTIFICATION

Full-Stack Web Development

Gained comprehensive knowledge in full-stack development, covering both front-end and back-end technologies. Learned to build scalable web applications using technologies like **React.js**, **Next.js, Node.js, Express.js**, and **MongoDB**. Developed proficiency in API development, user authentication, and database management.

Front-end Web Development

Learned core concepts of React.js, including component-based architecture, hooks, and state management using Redux. Built several real-world applications to strengthen front-end development skills and optimize user interfaces.

PASSIONS

⭐ **Problem Solving & Innovation**
Excited by the challenge of solving complex problems with innovative, scalable solutions, and improving web application performance.

📈 **Continuous Learning & Growth**
Passionate about continuously learning and staying updated with the latest trends in web development, particularly in modern JavaScript frameworks and technologies

💎 **Exploring New Technologies**
Enthusiastic about exploring new technologies such as GraphQL, serverless architectures, and improving my skills in API development.

SUMMARY

Experienced Programmer with 5+ years of expertise and a Bachelor's in Computer Science. A dedicated web developer specializing in React and Next.js, passionate about creating dynamic, user-centric interfaces. Proficient in scalable database design and contributing to full-stack projects, with a strong commitment to continuous learning and staying ahead of industry trends. Well-suited for forward-thinking development environments, ready to leverage skills to deliver impactful solutions.

EXPERIENCE

Frontend Web Developer

CliqUp 📅 01/2024 - Present 📍 Berlin, Germany
- Developed responsive web applications using React and Next.
- Translated UI/UX designs from Figma into functional code.
- Participated in agile processes like daily stand-ups and sprint planning.
- Optimized performance by resolving bottlenecks and implementing lazy loading.
- Ensured code quality through testing and code reviews.
- Integrated third-party APIs for seamless data flow.
- Collaborated with the QA team for testing and bug resolution.

Full Stack Web Developer Student

BIT - Beam Institute of Technology 📅 11/2022 - 11/2023 📍 Berlin, Germany
- Proficient in React.js and Redux for dynamic SPAs and state management.
- Extensive experience in modern, maintainable JavaScript (ES6+).
- Skillful integration of frontend and backend with Axios/Fetch.
- Familiar with Node.js for full-stack web application development.
- Proficient in MongoDB for effective NoSQL data management.
- Experienced in authentication using JWT/OAuth/CLERK for secure user access.
- Adept at debugging and optimizing applications using Chrome DevTools

Frontend Web Developer

Wivro 📅 06/2021 - 10/2022 📍 London, United Kingdom
- Created user-centric web experiences with HTML, CSS, and JavaScript.
- Mastered React.js and Next.js for dynamic, responsive interfaces
- Stayed updated with latest web tech and committed to continuous learning.
- Collaborated effectively in agile teams, providing innovative solutions.
- Managed MongoDB for efficient data handling in MERN stack.
- Implemented secure user access through OAuth and JWT authentication.
- Proficient in responsive web design using CSS frameworks.
- Ensured code quality through efficient debugging and optimization.

Game Developer

Upwork 📅 01/2020 - 12/2021 📍 Berlin, Germany
- Collaborated with clients to define game vision and requirements.
- Developed game mechanics, levels, and UI/UX for multi-platform play.
- Wrote clean, maintainable code and provided constructive feedback.
- Troubleshot issues, met deadlines, and ensured client satisfaction.

Unity Game Developer

BlueHorn Technology 📅 09/2017 - 08/2019 📍 Lahore, Pakistan
- Led successful mobile game launch with 500k downloads in the first month.
- Designed intuitive UI/UX, boosting user engagement and retention.
- Optimized performance for seamless gameplay on low-end devices.
- Collaborated with artists and sound designers for immersive experiences.
- Developed multiple games including
- Dinosaur Game Simulator Dino Attack 3D (Link)
- Dragon Simulator Attack 3D Game (Link)
- Cage Revolution Wrestling World (Link)

EDUCATION

Full Stack Web Development - Frontend Focused

BIT (Beam Institute of Technology) 📅 11/2022 - 11/2023 📍 Berlin, Germany

Web Development - Frontend Focused

Udemy 📅 05/2022 - 10/2022 📍 Berlin, Germany

BS Computer Science

Hajvery University 📅 10/2014 - 05/2017 📍 Lahore, Pakistan
